While you're munching or drawing can you tell your grown up what the **function** of each part is to help the plant grow? Can you label them?

HOT

Go on a walk in a local town, city or village. Look for examples of street art: **graffiti art, murals, sculptures and statues.** Create sketches of what you see.

What do these pieces of art bring to the area? Do they tell you about the history of the area? If you were going to design some street art what would it be?
