

Coronavirus (COVID-19) catch-up premium

We are eligible to receive funding for specific activities to support pupils to catch up lost teaching over the previous months of lockdown. The catch-up premium is funded on a per pupil basis at £80 per pupil, and Radley Primary will be in receipt of £8,480.

Based on the needs of our pupils and using the 'COVID-19 support guide for schools' published by the Education Endowment Foundation, we intend to spend some of this grant on targeted support through either one to one or small group tuition and intervention programmes by teachers and our Teaching Assistants. It will also be used support children with social and emotional needs by providing interventions.

We will monitor and evaluate the impact of our use of the Catch-up premium at throughout the year as part of our monitoring schedule. This will be reported to Governors through our Curriculum Committee.
