6 January 2021

Dear Parents,

I write to let you know that work for your child will be put onto Google Classroom for Key Stages 1 and 2, and onto Tapestry for Foundation Stage, as of tomorrow morning (Thursday).

Plans for the following week, beginning Monday 11 January will be available from Monday morning. We are very grateful for your support of your child with their home learning. Please let the School Office know should you have any problems with log-ins etc.

During the first full week of the children's remote learning we will continue to review the distance learning we are providing, looking at ways we can allow children to have interaction with the teaching staff over the coming weeks.

We are balancing high quality provision for those children learning remotely with the face-to-face teaching of a significant proportion of our children – almost a third of the school – who are being taught in school as Key Worker or vulnerable children.

Could I also draw your attention to the Home Learning tab on the website, where a significant amount of useful information can be located.

I thank you for your support in what I know is a tricky and challenging time for all.

With my best wishes,

Grace

Grace Slater  
Headteacher
