Dear Parents,

Over the past two years, several children at Radley Primary have benefitted from using an online, adaptive reading programme called 'Reading Eggs'. This is a fun, engaging and interactive online program that has been highly effective amongst the children who have been using it. It is primarily aimed at younger children but is a powerful and effective resource to consolidate both phonetic decoding and further developing comprehension skills. As part of the subscription, there is also access to a maths program that children can also use to develop their early maths understanding and skills.

We do not normally promote or endorse a paid resource to families, however as a 'Black Friday' deal, the company are offering an excellent discount for annual subscriptions. Reading Eggs could provide an excellent additional 'educational gaming' opportunity for home practice and support.

If you have more than one child, family subscriptions are available for up to four children.

Please follow this link to find out more and to view the online offer. Website:

If you are interested, but currently suffering financial hardship, please do come and talk to Jackie in the school office as we may be able to help.

Best wishes,
