14 July 2021

Dear Parents,

I write with information about the up-coming school expansion, which promises to be 'state of the art' and somewhere amazing for the children to learn.

Internal re-modelling of some areas is to begin on the first Monday of the summer holidays, and will be completed before the beginning of term. This re-modelling principally involves the Foundation Stage classroom, and will include the room having some new windows and doors as well as re-furbished kitchen and cloakroom areas.

Work on the new classrooms and on the hall expansion is now scheduled to begin after Half Term rather than during the holiday, to allow time for further archaeological investigations. However, all should still be ready in time for September 2022, when we look to open up the newly extended school.

With best wishes,

Grace
