18th October 2021

Dear Parents,

This term in DT we are learning about Seasonal Foods in the UK. As part of our topic, we will be sampling a variety of seasonal foods in class on Wednesday. Children will have the opportunity to sample and evaluate roasted vegetables that may be new to them. The following is a list of the ingredients the children will sample:

- Potatoes
- Butternut squash
- Pumpkin
- Carrots
- Beetroot
- Apple
- Olive oil
- Salt

Although we have a list of children's allergies, could you please contact the school office if there are any updates.

Best wishes,

Heather Sparks
